

Mr. Long - Principal

CAPTAIN'S CORNER

A BRIEF MESSAGE FROM OUR ADMINISTRATION

Dear Pirate Community,

I hope you will enjoy the release of our first ever digital Pirate Pipeline Newsletter! Beginning in March 2023, the Pirate Pipeline will be provided to each of our families the first week of every month through email and all of our social media outlets. The digital format will allow us to provide our community with deeper content, color pictures that highlight staff and students, and enable you to access information on the internet with active hot links.

We are also excited to announce that the proceeds collected through our advertisements in the newsletter will be used to support scholarships for selected students when they graduate from school. If you would like to advertise your business and support scholarship opportunities for our students, please refer to the last page of the newsletter for contact information.

Thank you to Mrs. Hofstetter for making this digital media concept a reality for our community!

Sincerely,

Louis M Long
Principal

PIRATE RADIO

The new Digital Audio Production class is proud to announce that PCHS' first-ever streaming radio station is live on the internet airwaves.

"PCHS Pirate Radio" features a music library of several thousand songs, and broadcasts material 24/7. Some stations claim to appeal to eclectic tastes, but Pirate Radio lives up to that description -- with student-curated programming and content, the station features everything from today's pop hits to classic rock, jazz, funk, and country - and even a dash of movie soundtracks!

Eventually, the class will be hosting live programming for part of the day, and will also host radio coverage of school news, student podcasts, and sporting events, in addition to "themed" music shows, all engineered and hosted by the Audio Production students.

Have any old CDs lying around? Pirate Radio can put them to good use!

But it doesn't stop there -- attention, budding Pirate musicians! Pirate Radio is also now the home of Walk the Plank Studios, a full digital recording studio, complete with a ProTools interface, vocal isolation booth, various instruments & drum machines, and the ability to track student performers and produce professional-sounding mp3s...or even burn multiple copies of your debut CD! Watch Pirate TV for upcoming announcements on how you can book studio time.

All this and more at PCHS Pirate Radio -- the best sounds on the seven seas!
