

This is Dr. Michael Desjardins, Assistant Superintendent of School Support for Charlotte County Public Schools. I am calling to update parents and guardians on the school systems response to the Coronavirus Situation that has now spread to Florida.

We are continuing to work very closely with the Department of Health daily to monitor the fluid situation and ensure all safety protocols are in place which include routine cleaning our schools to prevent the potential spread of germs. Currently we have no CCPS students who have tested positive for coronavirus.

If your child has a fever, please make sure they remain at home and fever free without medication for at least 24 hours. As always, stay in contact with your health care provider and update your school nurse with any issues or concerns.

The Department of Health Call Center is available at 1-866-779-6121 for any questions or concerns.

Thank you for your time and have a great night.
